FACTS FOR THE PEOPLE.—It is a terrible thing to find ourselves old and dependent.—This can only be prevented by adherence to the duty of saving something in our younger and riper years. It is astonishing to what an amount a small and inconsiderable sum will swell in the course of time—a sum ample to provide for all the necessities and temporal cares of old age, the night of our life in which no man can work. The Cincinnati Times alludes to a discourse of Dr. Franklin, who shows how individual investment may be accomplished, and by neglecting the day of small things. The young should act at once, lay by something in view of the approach of old age, and parents should endeavor to begin a system of economy while young. This is the way the writer referred to shows how a sixpence may be converted into a fortune.

He gives a table showing that 23 cents saved per day would yield, at 6 per cent, compound interest, \$2,900 in fifty years; 53 cents a day, \$5,800 in the same time; 133 cents a day, \$8,700; 11 cents, \$11,600; 133 cents a day, \$29,900; 55 cents a day would give \$58,000; \$2,900; \$5,800; \$11,600; and \$1,37 saved per day would yield \$145,000 in fifty years. So that if a young man at 21 years of age would save 23 cents every day, or just \$100 per year, he would at 71 years of age have worth \$29,900, when just at the time he must close out for this world he would possess a competency. At 51 years of age he would have \$7,900, which would be enough to support him in an old man's simplicity the balance of his days. These facts are certainly worth considering. There are many who could not save "by hook or crook" more than \$50 a year, and they must have the best of luck to do that. The balance of mankind might, a few of them, save \$137,500 at fifty years of age—\$77,000 at sixty-one, and \$145,000 at seventy-one years of age; but the larger portion of the remainder, who are on the other side of the circle, could not save more than 53 cents a day, or \$20 a year, giving them at fifty-one years of age \$1,370, at sixty-one, \$3,080, and at seventy, \$5,800—which would be a great deal better than nothing.

NEWSPAPER PUBLISHERS are more poorly rewarded than any other class of men in the United States who invest an equal amount of labor, capital and thought. They are expected to do more service for less pay, to stand more sponging and "dead heading," to puff and defend more people without fee or hope of reward, than any other class. They credit wider and longer, get oftener cheated, suffer more pecuniary loss, are oftener the victims of misplaced confidence than any other calling in the community. People pay a printer's bill with much more reluctance than any other.—It goes harder with them to expend a dollar on a valuable newspaper than ten on a needless gew-gaw; yet everybody avails himself of the use of the editor's pen and the printer's ink.

How many professional and political reputations and fortunes have been made and sustained by the friendly, though unrequited, pen of the editor? How many embryo towns and cities have been brought into notice and puffed into prosperity by the press? How many railroads, now in successful operation, would have floundered but for the "lever that moves the world." In short, how promoted, industry and activity has been by the press? And how stimulated and defended by the press? And how has the press been the cause of a miserable pitance for its service? The bazaars of fashion and the haunts of dissipation and appetite are thronged with an eager crowd, bearing gold in their palms, and the commodities there vend are sold at enormous profits, though intrinsically worthless, and paid for with scrupulous punctuality; while the counting-room of the newspaper is the seat of Jewing, cheapening trade, orders and pennies. It is made a point of honor to liquidate a grog bill, but not a dishonor to repudiate a printer's bill. It is generally believed, or that they have an inexhaustible mine of wealth always at their command. They need no money, and hence they can be put off till a convenient season, while any other bill must be promptly liquidated!—Exchange.

P. T. BARNUM, the great "side-show" showman, is catching it all around, and all sorts of jokes are manufactured at the great defeated's expense. Here are several:

"It is not true that Johnson has offered Barnum a mission to the Fæje Islands. The 'Mermaid's' protest.

"Congress did its best to protect wool and woolsens, but it failed to protect the 'Woolly Horse.'"
The defeat of Barnum destroys all our most ardently cherished hopes of the organization of a 'Happy Family' in Congress.

MATRIMONIAL DEMORALIZATION.—They complain of "great great matrimonial demoralization" in Chicago. One of the clergymen recently stated in his pulpit that a lady came to him to consult him, as her pastor, in relation to procuring a divorce, saying that her husband, though when she married him he was quite wealthy, had lately become so reduced in circumstances as to be unable to supply her with the luxuries to which she had been accustomed!—Luxbury News.

THE GREAT TOMATO.—Maupass's Superior Tomato, in point of flavor, production and perfection of shape, has no equal. It is a deep red color, in form it is round, slightly flattened, and without crease or wrinkle. It is of medium size, and the flesh almost as white as a beef steak. In proof of its solidity it may be stated that without being extraordinary large, the average weight is from nine to twelve ounces. One bushel will make more than 2000 cans, or all as many cans as 2 bushels of the ordinary kind, and in point of flavor it is unapproachable. As an evidence of the superiority of these tomatoes for marketing purposes they were offered for sale at \$2 per bushel, when others were offered at \$1. The seeds will be mailed to any part of the United States on receipt of 25 cents.

RESUMPTION OF BUSINESS.
STOVES, OF ALL DESCRIPTIONS,
TIN WARE, ROOFING, SPOUTING, &c.
ENOCH GRIMES,
having determined to resume his former business
in Alexandria, respectfully announces to the
public, that he has opened his establishment at
NO. 43, KING STREET,
below Fairfax, on the north side, where he is
prepared to furnish the public with every description of articles in his line, which may be
wanted. His assortment of COOKING STOVES,
will embrace every variety, and of the
best descriptions. He would enumerate;
among them, Noble Cook Stove, the best that
was ever in use, and well deserving its name—the
LITTLE, the PALMETTO, and others.
His TIN WARE will be found equal, if not
superior, to any ever offered for sale in Alexandria,
and housekeepers can have any description
of ware of that kind, which they may need.
He invites an examination of his goods, and
presents such a selection as cannot fail to please.
All kinds of ROOFING AND SPOUTING, &c.,
executed in the best manner and on the lowest
terms.
An experience of forty years in this business,
enables him to claim that he has a practical
knowledge of it, in all its branches. He is
desirous of not only accommodating, but giving
satisfaction to his customers, and to all purchasers,
and they may be assured that what he sells
will be of the best materials and of the
best manufacture. He will warrant whatever
he sells. It will be his object to secure patronage
by constant and personal attention to his
establishment.
With this announcement he will open his
Manufactory, willing to show by his efforts that
the patronage he asks, will redound to the
advantage of those who buy, as well as of him who
sells, and that the citizens of Alexandria and
the vicinity, need not go to any other place to
purchase what can be procured in their own city,
from one of their own people.

FERTILIZERS, &c.
GUANO AND FERTILIZERS.
The subscriber has on hand a full assortment
of the most approved MANURES, which he is
prepared to sell in any quantity desired, at the
lowest market rates.
As the prices are uniform the farmer can obtain
his supplies as well by correspondence as
though he were to purchase in person.
I OFFER:
Peruvian Guano, of the best quality.
Belgian Guano. This article comes from the
same section as Peruvian, which it closely re-
sembles in texture and appearance. It is much
richer in Phosphate, but has less Ammonia. For
stiff soils or stiff sub-soils it will answer quite as
well as Peruvian, and it costs but two thirds
the price of the article.
Mexican Guano, of four grades.
Ground Bones.
Whitlock's Cerealizer. The high reputation
borne by this article as the most effective and
reliable crop producer made in the United
States, induces me to ask the farmer to test it
alongside of any manure he may apply.
Woolson's Ammoniated Bone Phosphate. This
article is manufactured by the same house, and
contains all the best qualities of Peruvian Guano
and Ground Bones. WM. H. IRWIN,

GUANO—REED'S AMMONIATED SUPERPHOSPHATE OF LIME.—The best
superphosphate yet offered to the farmer, pos-
sessing all the activity of Peruvian Guano, but
being far more durable in its effects.
It contains a large amount of animal matter
in a highly concentrated form, which, combined
with its soluble bone phosphate of lime, cannot
fail to render it very valuable as a fertilizer.
Notwithstanding we believe it to be the best
superphosphate in the market, yet, by a pro-
cess of law in its manufacture, whereby the
expenses are lessened, we are enabled to sell it
very low, with a liberal discount to dealers.

MEDICAL.
CRISPER COMA.
Oh! she was beautiful and fair,
With sunny eyes, and radiant hair,
Whose curling tresses, soft and long,
Embraced the very heart and song.

CRISPER COMA.
FOR CURLING THE HAIR OF EITHER
SEX INTO WAVES AND GLASSY
RINGLETS OR CURLY
SIVE CURS.
By using this article Ladies and Gentlemen
can beautify themselves a thousand fold. It is
the only article in the world that will curl
straight hair, and at the same time give it a
beautiful glossy appearance. The Crisper Coma
not only curls the hair, but preserves it, keeps
it soft and cleanses it; it is highly and delightfully
perfumed, and is the most complete article
the kind ever offered to the American public.
The Crisper Coma will be sent to any address,
sealed and postpaid, for \$1.
